01 What was detected

- With the Presidential and National Assembly elections due on **Saturday, 16 January 2027**, the voter count in INEC's **2027 Preliminary Voter Register** for **508 polling units** across 17 of Edo State's 18 LGAs differs sharply from the 2023 register for the same units. Three units first entered as 9999 were checked by hand on INEC's display portal and are counted with their correct figures (see note at the end of section 02).
- **Far beyond normal growth.** Edo's whole register grew by 13.1% from 2019 to 2023, and the 2027 preliminary register is 14.6% above 2023 for the state as a whole. 500 of the 508 units that went up rose by more than twice the state's 2027 rate; only 2 rose by less than it, and those are marked *within normal* in the list.
- **508 units went up**: together they had **221,594** registered voters in 2023 and now show **412,049**, an addition of **190,455 voters (+86%)**. 142 of them more than tripled.
- **No flagged unit went down.** Every one of the 508 counted units shows more voters than in 2023, so the net change is the full **+190,455**.
- **Edo Central** has the largest addition among the senatorial districts (+146,317). Among federal constituencies, **Esan Central/Esan West/Igueben** leads (+138,695). The LGAs with the most flagged units are Esan West (191), Esan Central (117), Orhionmwon (22).
- **Near-empty units filled up.** 15 units with fewer than 50 registered voters in 2023 now show 150 or more; for example Open Space Beside St. Thomas Catholic Church,Idunwele Ewu (Esan Central) went from 23 to 503 and Town Hall, Edenu, Ikekato (Esan Central) went from 27 to 532.
- Largest single addition: **Udomi Primary School/Udomi- I** (12-03-02-001, Esan Central), from 357 to 4,783 (+4,426).

Resident Electoral Commissioner	INEC, Edo State	Obo Effanga	— (INEC official)	Responsible for the register in the state; first point of complaint

Parties are those the members were elected on in 2023; some Edo lawmakers have since changed party, and Dennis Idahosa became Deputy Governor in 2024, so confirm current affiliations before public use. Office holders were checked against news reports as at 22 November 2026. State House of Assembly members are not listed because the platform's data does not split units by Assembly constituency in every LGA.

07 What should happen next

- **Verify the register on the ground.** Opposition ward and polling unit coordinators should check the displayed voter list for each flagged unit, starting with the 70 hotspot wards and the near-empty units that filled up. Note names unknown in the community, duplicates, under-age registrants and people who do not live there.
- **Check that genuine voters are still there.** Padding can go with quiet removals. In each flagged unit, coordinators should confirm that known opposition supporters are still on the displayed register and help anyone missing to file a claim before the display period closes.
- **File claims and objections.** During INEC's display of the register, lodge objections at the INEC office in each LGA against questionable entries. Keep copies with dates and names of the officials who received them; they are evidence later.
- **Write to INEC.** Send this list, with ground findings, to the Edo REC (Obo Effanga, INEC State Office, Benin City) and copy INEC headquarters, asking for an audit of registrations and transfers into these units and the BVAS records behind them.
- **Put strong agents in every flagged unit on election day.** Each of the 508 units needs a trained, accredited opposition polling agent who stays from setup to upload. The agent should count voters as they are accredited on the BVAS, refuse any vote without BVAS accreditation, and record the BVAS accreditation figure on the EC8A.
- **Watch for over-voting and padded figures.** An inflated register is only useful to riggers if extra votes are written in. Agents should check that votes cast do not exceed BVAS accreditation, photograph the signed EC8A before it leaves the unit, and confirm the same sheet appears on IReV.
- **Follow the result to collation.** Ward and LGA collation agents should compare each flagged unit's figures with the photographed EC8A and challenge any entry that differs, citing this report.
- **Keep the evidence for any petition.** File photographs, objection receipts and agent reports by unit. 498 of the 508 flagged units rest on a single entry on the Reeg & Dai platform, so confirm each with a second, independent entry before citing it publicly.

How this was measured. The data was collected and made available by the Reeg & Dai platform, which detects suspicious changes in INEC's 2027 Preliminary Voter Register. It compares each polling unit's count in the 2027 preliminary register with INEC's 2023 register; areas follow INEC's 2023 polling unit list. These are detections for verification, not final findings: a rise can also come from lawful new registrations or transfers, and a fall from lawful clean-up of the register.
